

I beg you pay close attention to your upcoming decision that will impact the future existence of FM translator services.

I listen to KLOVE radio every single day. Where else can I find the uplifting message and enjoyable music without being forced to listen to language I choose not to hear (e.g. swear words, degrading talk)? KLOVE is a safe place for me and my whole family. I enjoy the comfort of knowing that my children and I won't be offended in any way.

KLOVE is the preferred choice of radio for MANY MANY people I know and work with. Without a station such as KLOVE to listen to, many people I know will likely stop listening to radio altogether.

KLOVE promotes harmony and provides comfort during a scary time for us Americans. KLOVE is a free means to stay informed about world events and to get needed encouragement.

PLEASE consider the impact of your decision regarding the FM translators service. I GOTTA HAVE MY KLOVE!!!
